

## PRODUCT INFORMATION

# Original BMW accessories Fussmatten Textil

**X5 (F15)**

**X6 (F16)**

### Product description

The Original BMW textile floor mat combines robust functionality with a particularly high-quality design. It protects the footwell and the floor covering from dirt, moisture and wear.

The new, high-quality BMW stainless steel metal insert gives the floor mat its unmistakable, sophisticated look.

### Details

- The textile floor mats have been specially developed for the X5/X6 and are therefore **100% a perfect fit**.
- The **unique material combination** of rubber and textile convinces even the most discerning buyer. The doormat is particularly thick and robust and consists of elegant black carpet with an innovative rubber backing and a special rubber edging.
  - The reinforced **rubber step protection** provides additional

Protection against wear and tear because it does not let water through. It combines high design standards with the best protection.

- Compared to the standard floor mat, the original textile floor mat is woven much **more densely**. It gives the footwell a high-quality and individual character. • **Quality times four**: All four textile floor mats (front and rear) are made of the same high material quality. • The design is perfectly matched to other interior products in the X5/X6 series: **high-quality and luxurious**, but at the same time **clear and timeless** in design. The high-quality **stainless steel metal insert** with a brushed surface is finished with a shiny BMW lettering and has been placed throughout. • The product is ideal for the X5/X6 customer who wants his

want to express individuality and at the same time want to **protect and retain the value** of the interior of their vehicle. • **Simple and secure attachment**: The mats are attached using the Velcro fastening system supplied and are very easy to use. Slipping is reliably prevented.

Fussmatten Textil

### Comparison to the competition

- The rubber-textile material combination of tightly woven carpet with a rubber edging and rubber backing is unique on the market. This combination makes the mat waterproof, hard-wearing and at the same time particularly elegant and of high quality.
- For the first time on the X5/X6, all four textile floor mats are equipped with fastening plates. The floor mats in the rear seat area are also stable and cannot slip.

## Functionality -

Thanks to its special fit, the textile floor mat adapts well to the contour of the floor covering and catches dirt of all kinds where they collect.

- The high product substance ensures a particularly long Durability.
- The rubber backing and the rubber edging make the product waterproof and ensure extra protection of the footwell.
- The integrated rubber step protection makes the product particularly hard-wearing.

## Recommendation

The product is well suited for cross-selling with other X5/ X6 Interieurprodukten:

- Luggage compartment mat
- Key case - Ski boot bag All products are designed to

match one another and are equipped with the BMW metal insert, for example. Incidentally, these metal inserts for all F15 interior products are individually manufactured for BMW by the same supplier - a novelty in order to achieve consistency in design and quality.
