

Ventilkappen Black Jack All types

Accessories

Product description

The valve caps in the characteristic MINI design can be quickly and easily exchanged for the existing valve caps. Like the conventional MINI valve caps, these are also provided with an internal rubber sealing ring. The valve caps are made of light black plastic and do not affect the concentricity of the wheel and tire combination, as metal valve caps can do under certain circumstances.

Selling Propositions/Benefits •

Ideal addition to existing ones

- Black Jack accessory products such as outdoor/ Interior mirrors, roof flags, etc.
- Lightweight.
- No rebalancing of the wheel/tire combination necessary.
