

## ORIGINAL BMW ACCESSORIES. Fussmatten Performance.

### Product description

The M Performance floor mats complement the sporty appearance of the BMW, especially the vehicles with existing M Performance products. The velor floor mats therefore match the existing M Performance product range and also bring the theme of sportiness into the footwell.

Provided with the M Performance lettering and a flag in the typical M colors, the floor mats underline the sporty look. A leather-look edging with decorative stitching in contrasting colors rounds off the high-quality appearance.

### Details

- **Sporty** and **dynamic** design.
- **Custom-fit** for the specified BMW vehicles.
- **Proven** technology.
- M Performance **branding** on the front mats.
- **Easy to care for:** the floor mats can be cleaned with water and a brush (a high-pressure cleaner or floor mat machine should be avoided).
- Due to the soft material, it is particularly **gentle** on the heels of the shoes.

### Comparison to the competition

Unique M Performance look.

### functionality

- The M Performance floor mats have an excellent fit. They are non-slip and easy to grip.
- It is attached in the vehicle using Velcro plates.

### Recommendation

- M5 (F90): Carbon-Paket interior – 5er
- (G30/G31): M Performance Carbon-Ausstattung Interieur (shift paddles, steering wheel cover)
- M Performance steering wheel
- M Performance Gangwahlschalter

### scope of delivery

- Set of floor mats (4 pieces)
- Fasteners for driver and front passenger mats
- Montageinformation

Fussmatten Performance

### Material

Velvet velor with a leather-look border and decorative stitching in contrasting colours.

#### Note: 2

fleece velor pads are welded to the back of the driver's/front passenger's floor mats. The Velcro elements with bayonet attachment for attachment to the floor covering that are included in the set are the counterparts to the pads and ensure that the floor mats stay in place perfectly.

#### Safety instructions: –

Always remove all floor mats or other objects from the vehicle floor before laying the floor mats.

– After each cleaning, make sure that the floor mats are properly attached so that they cannot slip while driving.

– Always use the Velcro pads supplied. If there are already Velcro pads in the vehicle, please exchange them for the ones supplied.
